

Green Sports Alliance Monthly Webinar Series

Our webinar series provides Green Sports Alliance members with information, solutions, and immediate actions they can take to achieve environmental impact reductions along with dollar savings. Alliance webinars cover a wide range of subjects from our key topic areas of waste, energy, water, purchasing/green cleaning, transportation, fan engagement, and more. Featuring thought leaders from sports, industry and the environmental community, our webinars present successful case studies of sports greening initiatives and myriad resources teams and venues may access to advance their own respective greening programs.

***Recording available for Green Sports Alliance Members. [Access webinar recordings here.](#) Please contact us at info@greensportsalliance.org with any questions.**

PAST ALLIANCE WEBINARS

<last updated February 20, 2019>

***Sports Industry Greening – League, Conference, and Governing Body Leadership**
